

Scale insects secrete wax mechanisms and application of exogenous signaling molecules for biological control research(Chinese Edition)

Filesize: 6.51 MB

Reviews

This is actually the greatest publication i have go through right up until now. I really could comprehended every little thing using this composed e book. I realized this book from my i and dad advised this ebook to learn.

(Jimmie Schmidt I)

SCALE INSECTS SECRETE WAX MECHANISMS AND APPLICATION OF EXOGENOUS SIGNALING MOLECULES FOR BIOLOGICAL CONTROL RESEARCH(CHINESE EDITION)

paperback. Book Condition: New. Ship out in 2 business day, And Fast shipping, Free Tracking number will be provided after the shipment. Paperback. Pub Date: 2012 07 of Pages: 158 in Publisher: China Forestry Publishing House. scale insects Coccoidea Coccoidea insects collectively. the vast majority of species are major pests in agriculture. forestry. fruit trees and flower cultivation. Their parasites has a variety secretion of wax glands that secrete wax to form a protective wax shell. prevention is very difficult. Book through a wide range of acquisition and the designated field observations. laboratory microscopic observation. producers of optical microscopy. paraffin sections. scanning electron microscopy techniques the Coccidae. mealybugs Branch. beads Coccidae. felt Coccidae. rouge Coccidae other five families. 10 genera and 11 kinds of scale insect wax secretion and secretion of wax glands ultrastructural features and functions. mechanism of secretion of wax. the secretion wax process. the variation of different developmental stages and biological control are conducted meticulous research -depth understanding of the physiological metabolism of scale insects. cytogenetic. phylogenetic. scientific control important theoretical significance and application value. The book is highly specialized. available for professional reference reading. Contents: Preface PREFACE an overview. scale insects and its economic value. scale insects secrete wax glands and wax secreted by ultrastructural studies of three exogenous signal molecules in the biological control of scale insects. ultrastructure and function of the content. purpose and significance of this study two scale insects secrete wax gland development and wax secretions I materials and methods. scale insects collected glass specimen preparation and identification of insect species wax gland and wax secretion Ultrastructure scanning electron microscope (S: EM) observation body wall tissue paraffin sections prepared and observed five test scale insects Type II results. Coccidae insect wax gland and the brown soft wax secretions (a) Japanese wax scale Ceroplastes japonicus...
