AED 6000 HOLLEY JET BOX 64-81 2EA

No binding. Book Condition: New. This item is printed on demand. Automotive. 72 pages. OCLC Number: (OCoLC)222034533 Subject: Diesel fuels. Excerpt: . . . The second part of the field assessment protocol was the site personnel questionnaire and infrastructure checklist. These documents were intended to resemble, in many respects, forms employed by environmental regulatory personnel in monitoring compliance with such regulations as those governing the operation of a hazardous waste facility. They addressed such items as: Are storage tank vents equipped with flame arrestors of approved design Do all vehicles inspected during the visit have approved fill opening and tank vent flame arrestors in place Is the required grounding device between the fuel dispenser and the vehicle fuel tank connected before fueling is initiated Does the fueling operation proceed in accordance with all required safety procedures Do fueling station and vehicle fleet personnel adhere to all safety requirements and procedures Have all fueling station personnel received the required safety training, signed safety training forms, and possess adequate knowledge of O Diesel fuel 2 A draft site inspection procedure and personnel questionnaire were submitted to O2Diesel for review and comment to ensure that the protocol was sufficiently comprehensive, did not omit items of importance, and was appropriate for use at O Diesel facilities (i. e. , does not address 2 operations that are not performed). O2Diesel circulated the assessment protocol among its staff and fuel sites to obtain feedback. These comments were taken into consideration for the final site assessment protocol. The complete questionnaire and site inspection checklist can be found in Appendices C through H. 7 This item ships from La Vergne, TN. Automotive.
