*A very awesome book with perfect and lucid reasons. It really is basic but shocks within the 50 percent of the book. Its been designed in an exceptionally easy way and is particularly merely right after i finished reading this ebook where in fact changed me, change the way i think.

Not illustrated. 1908 Excerpt: .one does not exhaust the hypo; but for a few prints the old can be used alone. The usual washing is required after the alum bath, as it is only used for hardening. I very often neglect its use if at all THE AMATEUR AND HIS TROUBLES 275 in a hurry. The time for toning varies from ten minutes to half an hour, according to the strength of the gold and the temperature of the bath, but the gold should never be strong enough to tone in less than ten minutes, as the hypo would not have time to act, especially if it is an old used bath. The principal advantage of this bath over any other, combined or separate for that matter, is that there is absolutely no danger of bleaching or uneven toning, and any reasonable variation of temperature does not have any injurious influence, thus doing away with the use of ice in warm weather. Care must be exercised in the original mixing of the chemicals, but after that, not much is necessary. I have actually employed used bath that was about a year old and of a dark brown color, and secured as good tones as from fresh. THE DARK-ROOM LIGHT. We hear so much talk about a safe dark-room light. There is practically no such thing as a safe light. Working, as too many beginners do, the light that the experienced worker finds safe for orthochromatic plates that are more or...
